Activity Report

For

5th AEARU Energy and Environmental Workshop

Pan-Guan Lecture Hall, Integrate Chemistry Building
Chemistry Department
National Taiwan University
22th (Wed) to 24th (Fri), October, 2014

By

Cheng-Liang Chen, Professor
Secretary of the 5th AEARU-EE Workshop
Department of Chemical Engineering
National Taiwan University

The 5th AEARU Energy and Environmental Workshop was held in Taipei on 23–24 October, 2014 by National Taiwan University. A total of 86 participants from Hong Kong University of Science and Technology, Peking University, Tokyo University, Tsing Hua University – Hsinchu, Tsukuba University, National Taiwan University and some local institutions had taken part in this workshop. It brought leading researchers and students from the AEARU members together to exchange and share their research results and experiences on all aspects of Energy and Environment.

The topics of this year’s workshop were as follows:

- Renewable Energies (Wind, Solar, Ocean, Biomass, etc.)
- Energy Technologies (Battery, Storage of Hydrogen, etc.)
- Energy Policies and Management
- Education and Talent Cultivation
- Other Energy-related Topics

This workshop is an ideal platform for delegates from these leading research-oriented universities in East Asia to discuss the practical challenges encountered with Energy and Environment.
